

# Natsoft announces Strategic Partnership with SAP, to provide expanded Digital Transformation services.

## Natsoft is now an SAP Partner!

Natsoft is pleased to announce a strategic partnership with SAP, the market leader in software solutions for the management of business processes, developing products that facilitate effective data processing and information flow across organizations. The partnership with SAP will pave the way for Natsoft to expand and broaden its existing SAP service offerings to the customers. The partnership will enable Natsoft to sell on-premises and cloud schedules, besides offering VAR delivered support and services schedule.

**Shyam Mamidi, Chief of Products, Solutions & Partnerships and CEO, Natsoft Asia** says it's a great endorsement of Natsoft's SAP capability and will help the company provide many broader service offerings to its clientele with the advantage of the direct collaboration with SAP.

## About Natsoft Corporation

Natsoft Corporation (Natsoft) is a 17-year-old US-headquartered boutique IT company, as a seasoned IT Service Provider, Natsoft Corporation is helping its large spread clients who are fortune multinationals, medium to large enterprises, with access to some of the wonderful solutions that help them transition from legacy applications to modern platforms such as Java and various other new-generation technologies, ERPs and even CRM.
